### The May-Bennett Fracus

New YORK, January 6.—The city i il of contradictory rumors about the obable result of the assault by Freder Jossips have not yet even agreed upon the exact nature of the assault itself, and it is still a question whether Mr. Bennett received the blows from the whip or May's fist, or neither or both. The pub lished reports are not unlike a scene "The School for Scandal." Mr. Bennet friends are divided between two equally positive opinions, one being to the effect that Mr. Bennett will be content with nothing less than blood, and the other that he has no intention whatever of provoking a fight; meantime betting men have profited by the occasion to lay wagers on the subject.

Both or no doubt that they will fight. Both are experts with the pistol, and that will undoubteply be the weapon chosen. It is said that this latter point was agreed upon before Mr. May left the city. Neither ex-Judge Gunning, S. An immense crowd was collected around the church when the cortege set out. There were over one hundred carriages for the friends and employees of the deceased, in addition to which numbers of private carriages and sleights gined the procession as it moved down Broadway. Three ferryboats took about aixty carriages on board and the rest were left behind. At 2 o'clock the carriages were landed at Vanderbilt landing. The procession reformed and set out for the old Morayian Church at New Dorp. The church was unable to contain a tithe of those who came in carriages and the crowds of Staten Islanders who had assembled.

LONDON, January 6.—The Turks have not failed to perceive the advantage accruing to their cause from irresolution of Russia in Europe, and are not unlikely to continue unmanageable and stubborn as long as they can flatter themselves that the Conference will break up without any other result than leaving them master of the situation.

The Pull Mull Gazette says it seems doubtful whether at any time more uncertainty or confusion has prevailed than at the present moment. It is clear the Committee of Foreign Statesmen assembled in Constantinople, has itself fallen into much disorder, and that, if the Turks are only resolute enough at this hour, and are thereafter turks solitions and
